### Financing Options

- **Lease / PPA (25yr)**
- **Loan (10yr, 25yr)**
- **Lease / Loan (10yr, 25yr)**
- **Battery Only Loan (10yr)**

1. Individual savings will vary based on customer’s utility rate, energy consumption habits, the solar system equipment installed on the customer’s property, tax incentives eligibility, weather and other factors. In some states Sunnova’s products are not designed to offer savings. Customers located in states or territories other than CA, CT, MA, RI, NY and NJ are likely to perceive savings substantially lower than 20%. Individual savings estimates are based on the customer’s solar energy production, your solar kWh rate, potential tax incentives, their utility kWh rate at the time of purchase, and projected increases in the utility rate (based on historical data and national averages). Estimates do not take into consideration other changes in utility rates. Such changes could affect the customer’s overall estimated savings. Sunnova does not guarantee savings.

2. The amount of power available from the battery during a power outage is limited, depending on the loads connected, customer usage and battery configuration (i.e. batteries in certain areas may be set up to provide you with the best economic benefit, which may affect the amount of back-up power available). Solar systems and/or batteries may require repairs after weather events and such repairs may be delayed due to forces outside of our control. No assurances can be given that the solar system or the battery will always work. You should never rely upon either of these to power life support or other medical devices.
Sunnova Protect™ Warranty

All Sunnova solar and Sunnova solar + battery storage systems are taken care of for 25 years with our warranty¹, Sunnova Protect™.

01

Sunnova Warranty
Repairs, maintenance, and a 10-year roof penetration warranty at no cost.

02

Production Guarantee
Credited if system doesn’t produce as promised (in select markets)²

03

Transferable Agreement
System agreement and solar benefits transferred to new homeowners provided that new homeowner meets Sunnova’s underwriting requirements.

04

24/7 System Monitoring
Track performance and service if system doesn’t produce as promised

05

System Insured
Applies to equipment in leases and PPAs

1. Limitations apply to the above. Refer to Warranty Agreement for complete warranty terms and limitations.
2. Your solar system production will vary based on weather, shading and other factors and your solar system’s cumulative production will be evaluated annually starting at the end of the third anniversary for purposes of the production guarantee.
